

 ORIGINAL
COLLECTION

INTRODUCING THE **ORiGINAL** **COLLECTION**

The ORiGINAL foam filled composite door is thermally efficient by design and offers a truly appealing entrance for any home.

With a high-definition smooth or grained glass-reinforced plastic (GRP) outer skin, the door will look stunning for years to come.

When it comes to colour, the choice is endless. Not only can you choose from a range of standard and premium colours, but you can also find the ideal colour using our colour matching PAiNT technology.

WHAT IS A COMPOSITE DOOR?

A composite door is constructed using a combination of materials. Typically, the core of a composite door consists of materials such as timber, PVC-U, insulating foam, and glass-reinforced plastic (GRP) skins. These materials are fused together under high pressure and heat to create a strong, resilient, and nice looking door.

FEATURES & BENEFITS

Composite doors have several standout features and benefits, making them a preferred choice for modern homes:

Durability

The combination of materials in composite doors makes them highly resistant to weathering, warping, and fading. They are less prone to denting and scratching compared to traditional wooden doors.

Security

Security is a top priority for any homeowner. Composite doors are incredibly robust and difficult to break through, offering excellent protection against intruders.

Energy Efficiency

Composite doors are excellent insulators, helping to maintain a comfortable indoor temperature by minimizing heat loss. This can lead to reduced energy bills and a smaller carbon footprint.

Low Maintenance

Unlike wooden doors that require regular painting or varnishing, composite doors are virtually maintenance-free. A simple wipe-down with soapy water now and then is usually sufficient to keep them looking pristine.

Variety of Designs

Composite doors come in a wide range of styles, colours, and finishes to suit any aesthetic. From classic to contemporary, there's a composite door to complement every home.

Weather Resistance

Given their robust construction, composite doors offer exceptional resistance to the elements, making them ideal for locations prone to harsh weather conditions.

ORiGINAL COLLECTION

Available in three style ranges, allowing you to design a focal point for your home to reflect your personality.

ENDLESS POSSIBILITIES

Exclusive Glazing Cassettes

The ORIGINAL® composite door range uses FLiP®, an exclusive glazing cassette system with revolutionary Foam in Place technology that delivers a superior seal and aesthetic. We also offer the unique Inox™ cassette system finished in stainless steel or black matt finish.

FLiP® Technology

The pre-applied foam in place technology creates a superior seal that prevents any water ingress.

FLiP® Standard

FLiP® Flat Grained

FLiP® Flat Stipple

FLiP® METALLIC

Inox™ Stainless Steel

Inox™ Black Stainless Steel

Standard

The traditional choice with a moulded design and a woodgrain finish to suit a more conventional door design.

Flat Grained

Be eclectic by combining a woodgrain finish with a modern squared-off flat profile that complements a contemporary Flush or designer Monza II door.

Flat Stipple

The modern one, with a squared-off flat profile and smooth stippled finish that perfectly matches Links, our aluminium-effect composite door.

Inox™

For a more European look, choose the stunning Inox™ stainless steel frames.

Be sure it's secure with Kubu Smart Security.

Our range of ORIGINAL doors are built to work with multi award-winning Kubu Smart Security Sensors. The sensors, which can be purchased independently, are easy to install and are completely concealed within the door frame, so your new door can be Smart while still looking smart.

Kubu monitors the security status of your door in real time and will send you a notification via a dedicated app if it's not secure, giving you the opportunity to put things right. It also links up with Alexa, and other Smart Home products to create actions such as turning your lights on when the door is opened.

Smart Sensors

Our first-of-its-kind door sensor, fits seamlessly into your door lock that 'Works with Kubu®', remaining completely concealed to maintain the aesthetics of the door, while adding the benefits of Smart technology.

Smart Sensors

- 📍 Completely Concealed
- 📍 Calibration FREE
- 📍 Locked/Unlocked/Open/Closed/Vented
- 📍 Tamper Detection Built-In

Smart Alerts

- 📍 Instant Status Updates
- 📍 SureSecure™ Geofence Alerts
- 📍 Scheduled Notifications
- 📍 Family Sharing

Smart Controls

- 📍 Fully Smart Home Integrated
- 📍 Works with Most Major Smart-Tech Brands
- 📍 Controlled with the Kubu® Smart Phone App
- 📍 Activates Automations at the Turn of a Key

Be Sure It's Secure.

High-Security Multi-Point Lift-Lever Door Lock, Equipped for Smart Security

Boasting the largest chamfered hooks and centre deadbolt in the UK, this unique combination delivers class leading security, compression performance, and ease of use for doors manufactured from uPVC, timber and modern composite materials.

Designed to work seamlessly with Kubu Smart Security sensors, the Avantis MPL not only provides premium physical security, but industry leading Smart Security too.

High-Performance Auto-Firing Multi-Point Door Lock, Equipped for Smart Security

Ideal for heritage style doors or those with pull-bar handles, the Avantis MagnaBolt is the only AutoLock on the market developed to work with Kubu Smart Security sensor technology.

Engineered to reduce operating forces to almost zero, the clever combination of self-lubricating polymers, stainless steel, and zinc-coupled with an innovative bolt and keep design, ensures incredibly smooth operation and exceptional security.

DOOR COLOURS

Door colours shown in the brochure should be used for guidance only. To ensure you are getting the right colour on your door, ask for your colour swatch today.

STANDARD RANGE

A range of 11 external colours with white interior as standard. Coloured both sides is a cost option.

Care & Maintenance

Your new door should keep you safe and secure for years to come however with all products and especially those that are exposed to the elements we recommend that you carry out a care and maintenance routine:

- Door frames should be washed with warm soapy water.
- The door leaf should only be cleaned using warm water or non-aggressive composite door wipes. No solvent-based product or abrasives should be used as these will damage the surface of the skin.
- External glass should be cleaned with warm soapy water and cleaned with a proprietary glass cleaner.
- Maintenance of the door may be required to maintain any guarantees from the installer. Hinges should be lubricated with engineering oil. Cylinders can be lubricated with Teflon-based products only, as other oils may cause degradation. If necessary, a small amount of lubricant can be applied to the moving parts such as letterplates, handles and knockers.
